a. Medically Needy

- (1) Income in excess of the MNIL is considered as available for payment of medical care and services. The Medicaid agency measures available income for periods of either one or    month(s) (not to exceed 6 months) to determine the amount of excess countable income applicable to the cost of medical care and services.
- (2) If countable income exceeds the MNIL standard, the agency deducts the following incurred expenses in the following order:
  - (a) Health insurance premiums, deductibles and coinsurance charges.
  - (b) Expenses for necessary medical and remedial care not included in the plan.
  - (c) Expenses for necessary medical and remedial care included in the plan.

YYY Reasonable limits on amounts of expenses deducted from income under a.(2)(a) and (b) above are listed below.

The only expenses not allowed are those paid before a potentially eligible month. Unpaid expenses are allowed if still considered a debt by the provider. A potentially eligible month includes: <sup>o</sup> three month prior periods, and <sup>o</sup> the earliest possible month of regular coverage. Incurred expenses that are subject to payment by a third party are not deducted unless the expenses are subject to payment by a third party that is a publicly funded program (other than Medicaid) of a State or local government.

If an individual receives a title II benefit, any amounts attributable to the most recent increase in the monthly insurance benefit as a result of a title II COLA is not counted as income during a "transition period" beginning with January, when the title II benefit for December is received, and ending with the last day of the month following the month of publication of the revised annual Federal poverty level.

For individuals with title II income, the revised poverty levels are not effective until the first day of the month following the end of the transition period.

For individuals not receiving title II income, the revised poverty levels are effective no later than the date of publication.

2. Medicaid Qualifying Trusts

In the case of a Medicaid qualifying trust described in section 1902(k)(2) of the Act, the amount from the trust that is deemed available to the individual who established the trust (or whose spouse established the trust) is the maximum amount that the trustee(s) is permitted under the trust to distribute to the individual. This amount is deemed available to the individual, whether or not the distribution is actually made. This provision does not apply to any trust or initial trust decree established before April 7, 1986, solely for the benefit of a mentally retarded individual who resides in an intermediate care facility for the mentally retarded.

[ ] The agency does not count the funds in a trust as described above in any instance where the State determines that it would work an undue hardship. Supplement 10 of ATTACHMENT 2.6-A specifies what constitutes an undue hardship.

1902(a)(10)  
of the Act

3. Medically needy income levels (MNILs) are based on family size.

Supplement 1 to ATTACHMENT 2.6-A specifies the MNILs for all covered medically needy groups. If the agency chooses more restrictive levels under section 1902(f) of the Act, Supplement 1 so indicates.
